OFFICE ACTION

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-12, 26-33,38-42 are rejected under 35 U.S.C. 102(b) as being anticipated by Hunt 6,332,546. See Figure 10. Note spaced apart rails (at 34) having a series of package supporting portions, cross members 73 or 27, retainer 38, glide 40. Glide 40 has wings 66. (see figures 12 and 13.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 13-25 and 34-37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hunt. The method recited is considered obvious in view of the Hunt article for one having ordinary skill in the art at the time of the invention.

RESPONSE TO APPLICANT'S REMARKS

Applicant asserts with regards to independent claim 1 that Hunt does not teach, disclose or suggest spaced apart rails having package supporting portions and states that no reference numerals were used to indicate the rails. The examiner has therefore endeavored to more clearly point out the rails and the supporting portions in the above

rejection. Applicant further asserts the tray is closed. The examiner would disagree in that it is open from the top. Applicant asserts that the independent claim 26 teaches wings that are not taught by Hunt. The examiner would disagree and has endeavored with the rejection above, with the aid of reference numerals, to more clearly set forth the rejection. In that the examiner has more clearly pointed out the rails, the further objections to the rejection have been addressed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
